## What are Barrylucss Stretch Ceilings?

The Barrylucss stretch ceilings are functional and innovative solution to embellish and decorate all types of public and residential spaces.

# What is a Barrylucs Stretch Ceilings?

A Barrylucs stretched ceiling is a non flammable sheet in PVC which is tightened under the effect of heat on the periphery of the walls or ceilings. It can be adapted to any surface, any form, any situation, any place specially ceilings which respects the quality, environment

Working beyond your imagination.

## Strength of innovation

Also a Barrylucs Stretch Ceiling is a suspended ceiling system consisting of two basic components:

- a perimeter track
- light weight fabric membrane

which stretches and clips into the track. In addition to ceilings the system can be used for wall coverings, light diffusers, floating panels, exhibitions and creative shapes.

The Barrylucs stretched ceilings are adapted in renovation or in new buildings construction they way you desire. It is an excellent solution to solve technical problems, they offer a unique design and a perfect result.

BARRYLUCS® allows you to create all types of stretch ceilings and panels, along with unlimited design possibilities.

*“there’s always a way to do it better & we find that way for you!”*

# Why Choose Barrylucs Stretch Ceilings?

Because the Barrylucs offers a complete line of products for design professionals (e.g. architects, decorators & interior designers) and for end users.

# Experience of a world leader of stretch ceiling.

## 1 OUR VALUES

Because respect is an essential quality, our values set up around this central concept which ensures us a good relationship with all we work with.

## 2 RESPECT OF OUR CLIENTS

The satisfaction of our customers is in the centre of our concerns. It has ensured us for more than forty years of constant product development.

## 3 RESPECT OF QUALITY

Quality is our watchword. Since the Barrylucs came into existence it was appreciated by most of our clients as we used the Barrylucs technique for projects of exception.

## 4 RESPECT OF ETHICS

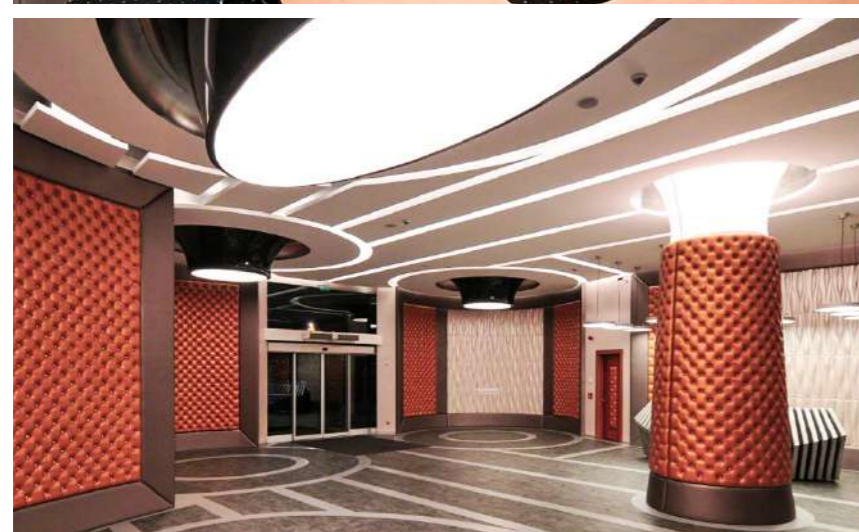

Ethics and ecology are closely interdependent. Thus, we invest ourselves in a modern day, based on the pillars of sustainable development.

## 5 RESPECT OF THE ENVIRONMENT

We consider the impact on the environment in all decisions it makes. Respect for the environment is one of our core values.

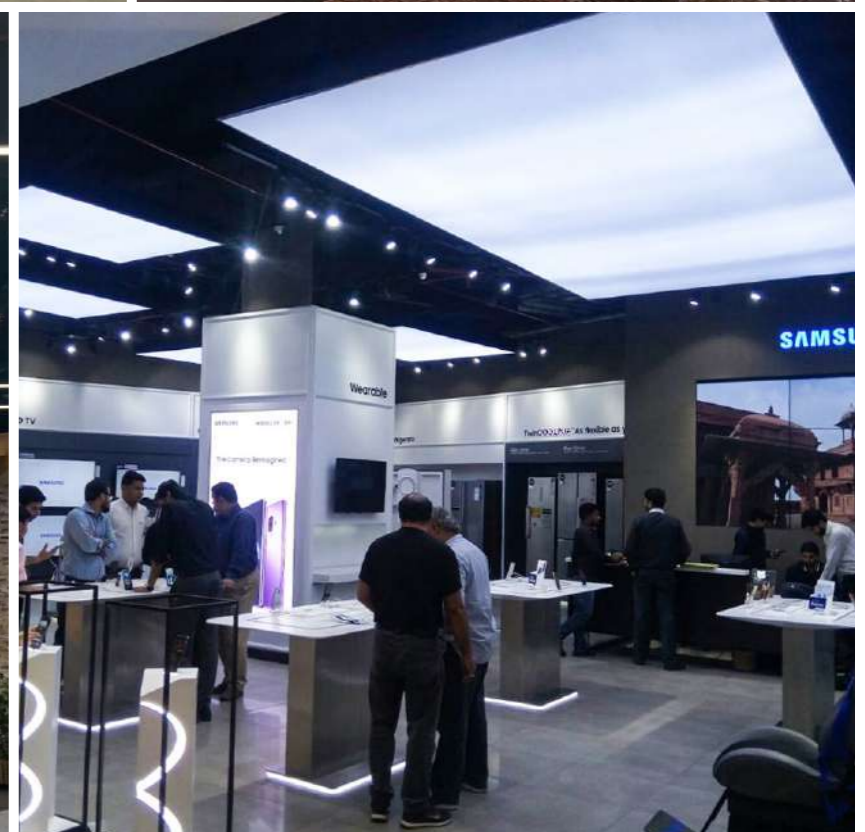

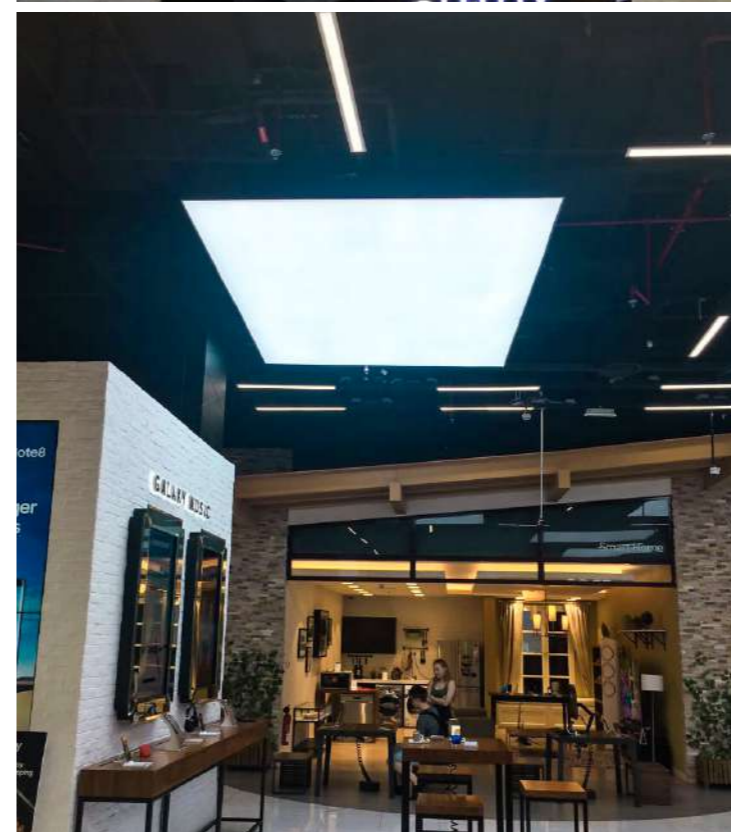

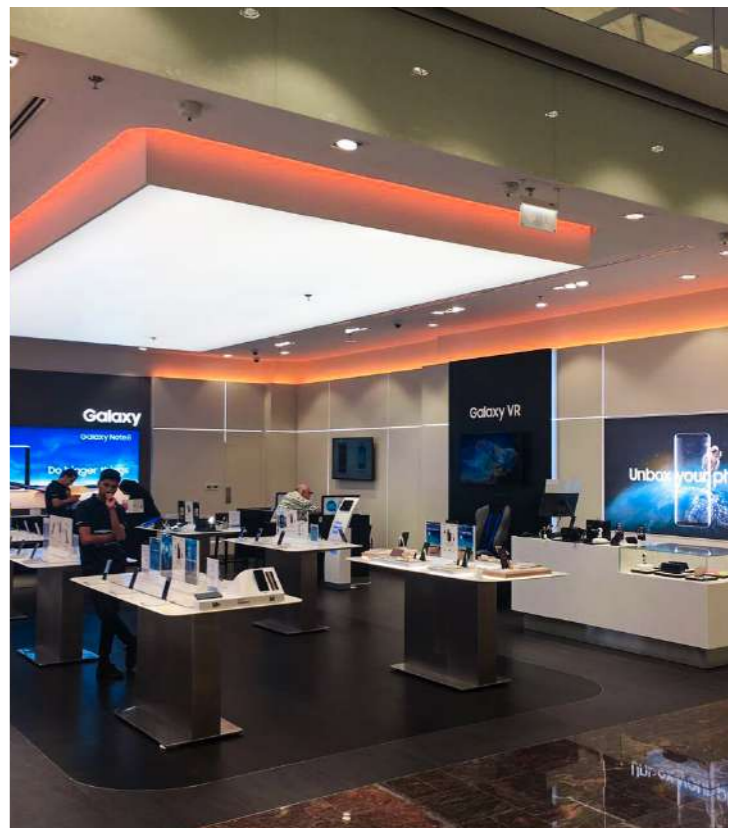

- Our engagement towards our customers and our collaborators constitutes the base of our activity. It symbolizes the tight link that we maintain with all of our costumers.
